

Ancillary and Other Services

Purpose: To avoid forms of conflicts of interests, so as to ensure Lianhe Global's rating independence, Lianhe Global does not intend to provide ancillary services in its early stage of development.

If Lianhe Global intends to provide ancillary services in the future, after it initially receives its SFC Type 10 License, Lianhe Global will ensure it in compliance with paragraph 30 of the Code. Prior to commencing any ancillary services business, Lianhe Global will immediately notify the SFC in writing regarding the specific nature of such ancillary services; and provide details on Lianhe Global's internal controls, governing regulations and compliance supervision that would support any ancillary business services in the future and apply for any relevant SFC licenses, if necessary.
