Principal Methodology Applied

Money Market Funds Rating Criteria (published on 1 February 2024)
The methodology can be found at the website www.lhratingsglobal.com.

A MMF rating is an opinion on the relative ability of a MMF or similar investment vehicle to provide liquidity and preserve principal in the MMF's target investment markets by limiting credit, liquidity, and market risks. We add the suffix "mf" to the six rating categories (AAA, AA, A, BBB, B, and C) to differentiate MMF ratings from Lianhe Global's Long-term Issuer Credit Ratings. MMF ratings are not and should not be construed as an investment recommendation.

Note: The above MMF Ratings are solicited at the request of the rated entity or a related third party. None of the aforementioned entities nor its related parties participate in the rating process aside from providing information requested by Lianhe Global.
