Lianhe Global has affirmed 'AAAmf' Rating of ChinaAMC RMB Money Market ETF (3161.HK, 83161.HK)

HONG KONG, 2 September 2026 – Lianhe Ratings Global Limited ("Lianhe Global"), an international credit rating company, has affirmed 'AAAmf' money market fund ("MMF") rating of ChinaAMC RMB Money Market ETF (3161.HK, 83161.HK) ("the Fund"), a RMB-denominated MMF, listed in July 2023, domiciled in Hong Kong, and managed by China Asset Management (Hong Kong) Limited ("ChinaAMC (HK)"). The Fund's primary investment objective is to achieve a long-term return in RMB in line with prevailing money market rates.

Key Rating Rationales

The 'AAAmf' rating reflects the Fund's fairly strong ability to provide liquidity and preserve principal, supported by the fund's well managed asset quality, strong liquidity profile and low exposure to market risk.

The Fund primarily invests in RMB-denominated and settled short-term deposits and high-quality money market instruments. Its credit quality met Lianhe Global's criteria for 'AAAmf' rated MMFs, with asset-weighted average credit quality equivalent to a high-investment-grade international rating ('BBB+' or above), during the review period since September 2025. Concentration risk was also well managed by limiting large exposures to strong credit quality assets or short tenor assets and closely monitoring the creditworthiness of invested assets.

In addition, the Fund had a strong liquidity profile, supported by sufficient daily and weekly liquidity to meet investors' fund flows. Its weighted average maturity and weighted average life were below 60 days and 120 days, respectively, which limited the Fund's exposure to market risk. Derivatives (if employed) is only for hedging purposes and the manager will hedge non RMB-denominated investments into RMB in order to manage any material currency risk.

ChinaAMC (HK), the Fund's management company, is a wholly-owned subsidiary of China Asset Management Co. Limited ("ChinaAMC"), a direct majority-owned subsidiary of CITIC Securities Co., Ltd. ("CITIC Securities", 6030.HK). ChinaAMC (HK) is committed to developing offshore and cross-border asset management businesses in Hong Kong.

Rating Sensitivities

Material adverse and continued development in the Fund's credit quality, maturities, liquidity profiles, and/or other deviations from Lianhe Global's rating guidelines may lead to a negative rating action.

Principal Methodology Applied

Money Market Funds Rating Criteria (published on 1 February 2024)
The methodology can be found at the website www.lhratingsglobal.com.

A MMF rating is an opinion on the relative ability of a MMF or similar investment vehicle to provide liquidity and preserve principal in the MMF's target investment markets by limiting credit, liquidity, and market risks. We add the suffix "mf" to the six rating categories (AAA, AA, A, BBB, B, and C) to differentiate MMF ratings from Lianhe Global's Long-term Issuer Credit Ratings. MMF ratings are not and should not be construed as an investment recommendation.

Note: The above MMF Ratings are solicited at the request of the rated entity or a related third party. None of the aforementioned entities nor its related parties participate in the rating process aside from providing information requested by Lianhe Global.
